Dear Parent/Guardian:

In a recent screening program, your child displayed possible scoliosis, or curvature of the spine. Further evaluation is recommended to determine if treatment is necessary. The effect of scoliosis depends upon its severity, how early it is detected, and how promptly it is treated. Please have your child examined by your family physician or check with the school nurse for other sources of treatment.

Please have the examining physician complete the form on the back of this letter and return it to the school nurse.

If you have any questions, please telephone the school nurse.
